

**Get Compensation for your long term illness?
Help end fluoridation in NZ.**

Fluoridegate Legal Action NZ is seeking affected individuals wishing to join a class action law suit against the Ministry of Health for your loss of enjoyment of life from the Ministry's fluoridation policy.

Remember the Dow chemical plant! Act now!

Do you have a long term medical condition from the following list:

- Chronic fatigue
- Gastric/digestive problems requiring medication
- Skin problems
- Tingling nerves in fingers or toes

You might have a chemical intolerance to fluoride, which you have been exposed to from fluoridated water while living in New Plymouth. Between 500 and 1500 New Plymouth residents will likely have been affected.

Fluoridation has now ceased in New Plymouth. If you have now found your symptoms recently disappeared or diminished, they might have been caused by fluoride.

Contact lawyers@fluoridegatenz.org.nz or write to Fluoridegate Legal Action NZ, PO Box 9804 Marion Square, Wellington.
